A MUNICIPAL LIQUOR ORDINANCE

Editor of News:

What is the matter with that liquor ordinance which Glendale was to have put into effect some time ago? The people whenever they have had any chance to do so have declared themselves in favor of a strict regulation or prohibition of the traffic in our town and are waiting to see something done. Other communities have gone ahead in this matter but Glendale, although incorporated almost two years, still lags behind. Let us hear from the city fathers.

CITIZEN.

(Correspondence)

THE NEW HIGH SCHOOL.

Editor of News:

There was a meeting several months ago to see about building a new High School. I do not see it grow; can you tell us what is being done about it. If anything is to be done at all in this direction, it seems to me that there should be a movement made soon looking towards the location of the new building, as large bodies move slowly and by the time we have a new building to accommodate our constantly increasing needs, we shall need something still bigger.

Yours truly,

A. F. L.

(Correspondence)

WHY NOT ANOTHER HOTEL!

Editor of News:

Many strangers have been noticeable on our streets recently and I find by inquiry of our real estate agents that there is a daily increasing demand for houses to rent and also for hotel accommodations. It would seem that somebody ought to be able to open another hotel in Glendale to accommodate the people who would gladly spend the winter in our midst if we were prepared to accommodate them. Our one hotel and the two or three boarding houses that we have are doing a good business and applicants for rooms are frequently turned away. The tourist invasion of Los Angeles is increasing right along and will do so for two or three months to come, and while the hotels there are not yet overcrowded, they have many patrons who would prefer to spend their time in the country if they could get reasonable accommodations at fair prices. It should be borne in mind that our new and permanent settlers are very laregly recruited from the hotels, from the ranks of those who are here to "look around" preparatory to selecting a home. We cannot afford to neglect the opportunity which every tourist season affords, of making a good impression upon and securing additions to our population from the many visitors who come to our town. I hope some one will act upon this suggestion. I am told that the hotel over the Bank of Glendale was well filled a year ago and remained so while it was conducted by a lady who understood the business.

VISITOR.

CITY TRUSTEES.

Present, Messrs. Anderson, Campbell, Parcher and Watson. The following demands were referred to the finance committee:

Henry J. Pauly Co. street bonds, etc.	$45.75
Riggs & Sherer, publishing tax list	57.40
Glendale Light & Power Co., January lights	51.50
R. S. Bassett, February rent	20.00
Otto Froehlich, labor or streets	6.25

Demands 423 and 424 previously referred to the finance committee, were allowed and warrants ordered drawn.

A communication from Thos. D. Ogg in reference to his assessment on Fifth street, was read and referred to the street superintendent and city engineer. Report of city clerk on licenses issued since January 1st, 1908, was received and placed on file. Weekly reports of tax and license collector was received and filed.

On motion it was ordered that the bids for the improvement of Adams street between First street and the southerly city limits, be opened and publicly declared.

The following bids were then read and referred to the city engineer to report at next meeting:

	Grad-ing.	Oil-ing.	Curb	Sidewalk
E. A. McCombs	.40	.03	.30	.10
J. N. Patillo	.26	.028	.30	.10
Jos. C. Braun	41½	.0348	.24-25	.10

On motion the plans and specifications submitted by the fire committee for the erection of a two-story brick building for the use of the fire department, were accepted, approved and placed on file.

On motion the special building committee to act as the building committe named in the specifications, is to be appointed by the president of the board of trustees.

The city clerk was instructed to give notice that the bids will be received by the board of trustees up to and including Feb. 26th, 1908, at 6:30 p. m., for the construction of a two-story brick building according to plans and specifications on file in the office of the city clerk, each bid to be accompanied by a certified check for ten per cent. of the amount of the bid. The board reserves the right to reject any or all bids.

A resolution, Number 111, ordering certain street work to be done on Fourth street, was adopted.

The city engineer presented two deeds for the conveyance of certain lands for street purposes along Brand boulevard, to the City of Glendale. Referred to the city attorney.

Report of the building inspector for January was presented, showing the issue of permits for the erection of four frame dwellings, one barn and one California dwelling, at a total valuation of $6575.

The city engineer was instructed to recommend a grade for Fourth street between Brand boulevard and Central avenue.

The street superintendent reported on street signs as follows: Redwood posts, 4x4 planned, $34.00 per hundred feet; cost of lettering, 50 cents each. He was instructed to procure the necessary number of signs for Second, Third, Fourth and Fifth streets, from Central avenue to Verdugo road.

Mr. M. A. Rogers visited with Mr. H. M. Overton this week and met old Glendale friends. He has been spending some months around Yuma and Imperial and tells wonderful stories of the productiveness and great growth of that section, but still thinks that Glendale is the ideal place for a home.

AT THE GLENDALE LIBRARY.

The January number of "News Notes of California Libraries" is devoted to art and music in California, and may be seen on the reading table at he library. The historical department of the state library has been especially engaged during the past year in gathering all possible information regarding authors, artists and musicians who have been identified with the literary and artistic life of the state and this number of the News Notes will be found interesting to the specialist, and to the reader interested in the general development of the state.

"The Progress of Art in California," by Robert Howe Fletcher, director of the San Francisco Art Institute, is interesting from a historical as well as an artistic standpoint. The reproduction of the painting "Sunday in California in the Olden Days," by Charles Nahl, the first artist who settled in the state, is suggestive of a whole history of that uncrystallized period.

An improvement has been made at the library by Mr. Pulliam, who had electricity put in at the same time that it was placed in his undertaking parlors.

The following review is of one of the new books at the library:

"Ancestors," by Gertrude Atherton.

This recent publication of Harper Brothers displays more than ordinary power and interest, treating in the course of its composition a variety of thought arresting topics with rather unusual penetration and strength and thus claiming the attention of the more discriminating of the reading public.

In the opening chapters the reader is introduced to some interesting pictures of the life, interests and activities and ambitions of the upper class in England while he is also given some unusual and surprising gymnastic stunts in arriving at the meaning of the past and extraordinary use of words.

The author displays a vigorous intellectual grasp in the manner in which she dissects and analyses crudities and conventionalities, vices and virtues, motives and actions, while her estimate of character, environment, natural scenery and the many subjects which enter into the life of the book indicate a logical and acute mind. The lover of character sketches will find this cause most entertaining.

The closing chapters are synchronous with the recent great San Francisco earthquake and truthfully portray the disaster. While a greater part of the story is laid in California and the author's descriptions of this unique country are partly historic and most realistic and give an intimate estimate of the northern part of the state and people, hardly possible to other than a Californian, which Mrs. Atherton is, one can but wish, however, that she were familiar with Southern California that she might do justice in her mention of that part of the state.

NEWS OF THE WEEK.

U. S. Supreme court unanimously declares boycott illegal, on the grounds that it is in restraint of interstate trade.

Gen. Stoesel on trial for treason at St. Peetrsburg for surrender of Port Arthur. If found guilty will be condemned to death.

Thaw having been acquitted on the plea of insanity, is confined in Mattewan hospital for insane, with no immediate prospect of release.

Mrs. Eddy, leader of Christian Scientists, leaves Concord for Boston. Is building a "House of Mystery" at Newton, which she will occupy.

Chicago anarchists at Sunday meeting express their sympathy for the assassins of King Carlos and utter sentiments of most revolutionary character.

Blizzard is raging throughout the East. Traffic tied up in Chicago and other cities. Zero weather in New York City and much lower in interior of state.

Premier Franco, of Portugal, resigns. King Manuel appoints a conciliatory cabinet, all members of which are opposed to policy of the late premier.

Leading Democrats as well as Republicans in Congress express their approbation of President Roosevelt's message and declare that Congress will act in accordance with its recommendation.

SAN FERNANDO AND VERDUGO CANYON WATER SUITS.

We learn that the case decided by the Supreme Court recently in which the City of Los Angeles was plaintiff, was a suit against Van Nuys, and not the main case in which the settlers generally are involved; no diecision having yet been announced in that case. The two suits, while very similar as to the city's contention, are somewhat different, as the Van Nuys case was affected by certain stipulation which do not apply to the other. The decision in regard to the case of the Verdugo Canyon Water Company versus Verdugo, Ross and Thom, turns out to have been more favorable to the company than at first supposed. It supports the contention of the defendants to the effect that they have riparian righs which entitle them to the use of the water. The court recognizes the riparian right, but rules that it must be exercised with reasonable limitations, and in its application it would seem to prevent pumping by the said defendants to an extent that would materially injure the company whose rights and property are below the location of the pumps referred to. The decision is of interest to the San Fernando Valley people, as it recognizes the riparian right of the land owner to take water from his own land; a right denied by the decision of Judge Gibbs, in the case of the City of Los Angeles versus the water users of the valley.

GLENDALE, CAL., FEBRUARY 8, 1908

To Subscribers

Under a new ruling by our paternal government at Washington in regard to postal affairs, a weekly newspaper, in order to enjoy the benefit of entry to the mails as second class matter, must have a practically paid-up subscription list. The carrying of delinquent subscribers beyond the limit of one year is made illegal. A short time will be allowed by the department to the newspapers to adjust themselves to the new condition of affairs before enforcing the new law.

This paper, fortunately, has but few subscribers who have gone beyond the year limit, but it becomes necessary to remind all of our patrons that the subscription price must not be allowed to go unpaid beyond the one year limit, and the rule is for payment in advance.

What has become of the "dry weather" prophets? We haven't heard a croak for a week.

Wall street is still hunting for a presidential candidate. What's the matter with Chancellor Day?

Chancellor Day does not like the president's latest message. It's a cold Day for enthusiasm at the Syracuse university!

New York has a 400 of which during his lifetime Ward McAllister was a self-appointed representative. Chicago has another "400." They assembled last Sunday in that unfortunate town and expressed their sympathy with the Lisbon assassins.

There is some talk of prosecuting ex-Coroner Lanterman for traveling on passes and presenting bills for railroad fare. This is drawing it rather fine on poor Lanterman. Why, that is one of the recognized perquisites of a public officer. What do they hold passes for otherwise?

We regret to note the passing from the journalistic field of our erstwhile picturesque contemporary, G. W. Glover, of the South Pasadenan. We shall miss the invigorating independence of his expressed opinions from week to week; but wherever he may be we wish him all the good that he deserves—and then more.

"Cheap Advertising"

Under this caption we find the El Monte Gazette making some very proper comments, based upon an article in the San Fernando Press, in which this paper is accused of publishing a "Notice of Hearing" at the rate of eighteen cents per inch.

The trouble about the whole matter is that Bro. Crooks (usually level-headed) is entirely wrong as to the alleged facts. The notice referred to was paid for at usual rates, which are not lower than the charges of our contemporaries.

This paper is not cutting advertising rates; we have refused a number of offers from the advertising agencies which we notice some of our contemporaries have accepted. We certainly would not knowingly cut under the rates of a contemporary for work in his own particular field, but we shall exercise the right of accepting advertising which comes to us at our own rates (as it did in above-named case) even if it might be outside our own particular bailiwick.

Be sure of your text next time, Bro. Crooks.

Trading at Home

In conformity with our idea of publishing letters from correspondents, regardless of whether their ideas are in accord with our own or not, our "Pro Bono Publico" department last week had a letter from "A Resident of Glendale." It should not be necessary to say again that we are not responsible for the contents of our "Kickers' Column," but we shall have to reiterate that assertion now and again probably.

We believe that nothing but good can result from the expression of diverse views on various topics of local interest. It is far better when any of our citizens have a real or fancied grievance, that they should express it. And there are none of us so infallible as to be above criticism.

As to the case in point, we think our correspondent wrong in intimating that any of our local merchants indulge in dishonest practices. We do not believe that any of them give short weight; and as we have dealt with some of them for a good many years, we would naturally have discovered such a fact some time ago if it existed.

That any one should go from his own town to a large city in the expectation of finding more honest dealers, strikes us as illogical. The local merchant knows his customers and is known to them, and the temptation to practice dishonest methods is consequently less than in a larger place where dealer and patron are so often strangers to each other. It is so clearly to his own interest that the local merchant merit the support of his townsmen that he will certainly endeavor to do so if he knows how. And we believe he can gain that knowledge more readily, if he does not already possess it, by giving attention to any fairly-expressed criticism of his methods. The criticism may not always be just, but it is not unfair to suppose that he will sometimes find in it meat fit for consideration.

We do know of a number of people in our town who do not patronize the home stores as we should like to see them do; but it is because they have in some cases not yet been led to break away from the old habit of buying in Los Angeles; they have not yet had aroused in them a proper sense of local loyalty, or—and perhaps this is the real reason after all, they have not yet been led to see that it is to their interest to do so. To convince them that they can best serve their own interests by patronizing home industries and enterprises is the task of our business men, and they should bend their energies in that direction.

It is certainly true that the residents of our town are bound together more or less by a common bond of interest, and that every dollar spent here instead of on the outside is a dollar invested for the common good. We would not presume to dictate to anyone as to how he should spend his money, but we hope to see such a good understanding grow up between merchants and consumers that this common interest may be more generally recognized, so that all may work together for the good of all.

President's Latest Message

The president continues to create precedents. His actions are not always consistent with the greatest imaginable dignity, but they are characterized by a dynamic originality that drives his point home. He is determined that his position shall not be deprived by immemorial precedent of its high potentiality. We can imagine him insulted or attacked by some irrational fanatic or vindictive personal enemy while a policeman was close at hand, yet not deigning to call upon the peace officer for assistance, taking the offender by the nape of the neck and chucking him into the ante-room or the alleyway whichever would best serve his purpose.

In matters of state his actions are quite consistent with such a character. He does not stop to look up precedents or consult authorities; if he can do the thing himself, he does it and saves time.

It is this forceful independence which accomplishes things that endears him to the people at large. We are tired of precedent and weary of platitudes and want to see some things done differently. The best things accomplished by the president have resulted from this independence in action which is his most valuable characteristic. His predecessors for years have failed to work the reforms which they might have accomplished had they possessed the same sturdy independence of character. He took the laws as he found them and achieved results. He discovered the practically dead Sherman anti-trust law and resuscitated it for his purpose, using it as an effectual instrument with which to create consternation in the camp of the common enemy. He found a way to prosecute successfully the timber pirates who for thirty years at least, with their illegal acts a matter of common knowledge, have been systematically robbing the people of their patrimony. And now when the allied forces of the opposition have exploded their mine and caused considerable destruction in the attempt, he comes back at them in a message such as never before emanated from the White House, and there is considerable consternation in the camp of the "Predatory Rich."

His latest message, however, is consistently in line with all that he has written or said upon this subject. He discriminates wisely, as he has always done, between riches honorably accumulated and the great fortunes built up by unfair methods, by the stifling of competition in the ways of trade. By no fair construction can he be said to be the opponent of thrift and enterprise, and yet his enemies are bending all their energies toward demonstrating that such is the case.

In regard to the Sherman law he says that "it makes some combinations illegal altho they may be useful," and he would have this remedied. Referring to the fixing of railroad rates by a commission, he declares that "we must not insist upon lower rates in all cases;" and again: "Corporate methods are most satisfactory in many cases." In regard to capital and labor, "If a labor union does wrong, we oppose it as firmly as we oppose a corporation which does wrong." When he declares that "No man should lightly criticise a judge," he enunciates a very important truth which has a particularly timely application just now when it seems to be the popular thing to indulge in cheap criticism of the court whenever it fails to give a decision in conformity to our wishes. He denounces the defense made by the Standard Oil and railroad people who have been heavily fined by the courts as "elaborate, ingenious and untruthful."

Altogether, the message is a great document and will have an immense influence in shaping congressional legislation, in strengthening the weaker followers of a great leader and in giving stability to the wave of reform that is sweeping the nation onward toward higher ideals of civic righteousness and good government.

RESOLUTION NO. 109.

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING CERTAIN WORK TO BE DONE ON A PORTION OF CHESTNUT STREET.

The Board of Trustees of the City of Glendale do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Glendale, State of California, hereby orders the same to be done according to the specifications and plans adopted for said work, and under the direction and to the satisfaction of the superintendent of streets of said city, to-wit:

First. That that portion of Chestnut street from the easterly line of Central avenue to a line drawn across said Chestnut street from the southeast corner of lot 121 to the northeast corner of lot 136 of Grider and Hamilton's Lomita Park tract, as recorded in maps of Los Angeles county, Book 6, page 105. Also that portion from a line drawn from the southwest corner of lot 120 to the northwest corner of lot 137 of the Lomita Park tract mentioned above, to the westerly line of Glendale avenue, including all intersections of streets (excepting such portion of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon), be graded and oiled in accordance with the plans and profile on file in the office of the City Engineer and Specifications for the grading and oiling of streets on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 7; except that the first application of oil shall consist of two gallons of oil per square yard and that the second application of oil shall consist of one gallon per square yard instead of as specified in said Specifications.

Second. That a cement curb be constructed along both sides of the roadway of Chestnut street from the easterly curb line of Central avenue (being 16 feet westerly from the easterly side of Central avenue) to a line drawn across Chestnut street 10 feet westerly of a line drawn from the southeast corner of lot 121 to the northeast corner of lot 136 of Grider and Hamilton's Lomita Park tract as said tract is shown on a map of the same recorded in Maps of Los Angeles county in Book 6, page 105. And on both sides of the roadway of Chestnut street from a line drawn across Chestnut street 10 feet easterly of a line drawn from the southwest corner of lot 120 to the northwest corner of lot 137 of the Lomita Park tract as above referred to, to the westerly line of Glendale avenue, being 10 feet easterly of the westerly side of Geindale avenue (excepting along such portions of the line of the said roadway upon which a cement curb has already been constructed to the official line and grade), in accordance with specifications for the construction of cement curbs on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 2.

Third. That a cement sidewalk five feet in width be constructed along both sides of the roadway of Chestnut street from the easterly curb line of Central avenue, being 16 feet westerly from the easterly side of Central avenue, to a line drawn across Chestnut street 10 feet westerly of a line drawn from the southesst corner of lot 121 to the northeast corner of lot 136 of Grider and Hamilton's Lomita Park tract as said tract is shown on a map of the same recorded in Maps of Los Angeles county, in Book 6, page 105. And on both sides of Chestnut street from a line drawn across Chestnut street 10 feet easterly of a line drawn from the southwest corner of lot 120 to the northwest corner of lot 137 of the Lomita Park tract above referred to, to the westerly curb line of Glendale avenue, being 10 feet easterly of the westerly side of Glendale avenue (excepting such portions of said Chestnut street between said points along which a cement sidewalk five feet in width has already been constructed to the official line and grade). Said sidewalk to be constructed according to specifications on file in the office of City Clerk of said City of Glendale, said specifications being numbered 1.

Section 2. That the Board of Trustees of the City of Glendale finds upon estimates directed to be furnished and furnished by the City Engineer, that the total cost of said improvements will be greater than fifty cents per front foot along each side of said street, including the cost of intersection, and it is hereby determined, in pursuance of an Act of the Legislature of the State of California, approved February 27, 1893, as amended by an Act of the Legislature amending said last named Act, which amended Act became a law March 2, 1899, that bonds shall be issued to represent the cost of said improvements; said bonds shall be serial, extending over a period of ten years and an even proportion of the principal sum of such bonds shall be payable annually by coupon on the second day of January of each year after their date until the whole are paid, and said bonds shall bear interest at the rate of seven (7) per cent. per annum on all sums unpaid, payable semi-annually by coupon, on the second day of January and July of each and every year.

Section 3. The Glendale News, a weekly newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution and Notice of said street work inviting sealed proposals, shall be published in the manner and form and by the persons required by law.

Section 4. The City Clerk of the City of Glendale is hereby directed to post conspicuously for five days on or near the Chamber door of the Board of Trustees, in the manner and form required by law, a notice with specifications inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated for that purpose, as aforesaid, in the manner and in the form required by law, a Notice of said work inviting sealed proposals or bids for doing said work and referring to the specifications posted or on file. Said Notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent. of the aggregate of the proposals; said City Clerk is also hereby directed to publish this Resolution for two days in the manner required by law, in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 29th day of January, 1908.

WILMOT PARCHER,
President of the Board of Trustees of the City of Glendale.

RESOLUTION NO. 110.

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING WORK TO BE DONE ON A PORTION OF NINTH STREET.

The Board of Trustees of the City of Glendale to resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Glendale, State of California, hereby orders the same to be done according to the Specifications and plans adopted for said work, and under the direction and to the satisfaction of the superintendent of streets of said city, to-wit:

First. That that portion of Ninth street from the southerly prolongation across Ninth street of the easterly line of Granada street as said Granada street is shown on the map of the Glendale Garden Home tract, recorded in Book 11, page 46, of the Maps of Los Angeles County Records, to the westerly line of Adams street, including all intersections of streets (excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon), be graded and oiled in accordance with the plans and profile on file in the office of the City Engineer and Specifications for the grading and oiling of streets on file in the office of the City Clerk of the City of Glendale, said specifications being numbered 7; except that the first application of oil shall consist of two gallons of oil per square yard and that the second application of oil shall consist of one gallon per square yard instead of as specified in said specifications.

Second. That a cement curb be constructed along the southerly side of Ninth street from the southerly prolongation across Ninth street of the easterly line of Granada street, as Grenada street is shown on a map of the Glendale Garden Home tract, recorded in Book 11, Page 46 of Maps of Los Angeles County Records, to a point opposite the northwest corner of lot 2 of E. S. Butterfield's Subdivision, as said subdivision is recorded in Book 18, Page 29, Miscellaneous Records of said Los Angeles county; also along both sides of the roadway of Ninth street from the southerly prolongation across Ninth street of the easterly line of Granada street referred to, to the westerly line of Adams street, except that said curb shall be omitted on the southerly side of Ninth street from the point opposite the northeast corner of lot 1 of said E. S. Butterfield's Subdivision, for a distance of 60 feet easterly therefrom and also omitted on the northerly side of Ninth street from the southerly prolongation across Ninth street of the easterly line of said Granada street for a distance of 25 feet easterly therefrom; and also excepting along such portion of the line of the said roadway upon which a cement curb has already been constructed to the official line and grade), in accordance with specifications for the construction of cement curbs on file in the office of the City Clerk of the City of Glendale said specifications being numbered 2; excepting that said curbs shall be placed a distance of 12 feet from the property lines instead of as specified in said specifications.

Third. That that portion of Ninth street from the southerly prolongation across Ninth street of the easterly line of Granada street as said Granada street is shown on the map of the Glendale Garden Home tract, recorded in Book 11, Page 46, of Maps, Los Angeles County Records, to the easterly line of Glendale avenue including all intersections of streets (excepting such portion of said street and intersections as are required by law to be kept in order or repair by any person on company having railroad tracks thereon), be oiled in accordance with the plans and profiles on file in the office of the City Engineer and special specifications for the oiling of that portion of Ninth street on file in the office of the City Clerk in the City of Glendale which said specifications were duly adopted for said work by Resolution No. 98, by the City of Glendale.

Section 2. That the Board of Trustees of the City of Glendale finds upon estimates directed to be furnished and furnished by the City Engineer, that the total cost of said improvements will be greater than fifty cents per front foot along each side of said street, including the cost of intersections, and it is hereby determined, in pursuance of an Act of the Legislature of the State of California, approved February 27, 1893, as amended by an Act of the Legislature amending said last named Act, which amended Act became a law March 2, 1899, that bonds shall be issued to represent the cost of said improvements. Said bonds shall be serial, extending over a period of ten years and an even proprtion of the principal sum of such bonds shall be payable annually by coupon on the second day of January of each year after their date until the whole are paid, and said bonds shall bear interest at the rate of seven (7) per cent. per annum on all sums unpaid, payable semi-annually by coupon, on the second days of January and July of each and every year.

Section 3. The Glendale News, a weekly newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution and Notice of said street work inviting sealed proposals, shall be published in the manner and form and by the persons required by law.

Section 4. The City Clerk of the City of Glendale is hereby directed to post conspicuously for five days on or near the Chamber door of the Board of Trustees, in the manner and form required by law, a notice with specifications inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated for that purpose, as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent. of the aggregate of the proposals; said City Clerk is also hereby directed to publish this Resolution for two days in the manner required by law, in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 29th day of January, 1908.

WILMOT PARCHER,
President of the Board of Trustees of the City of Glendale.

ASTROLOGY UP TO DATE.

By Lombroso Spaghetti, A. S. S.

Beware, beware of the evil eye—
Eat very few doughnuts and no pie.

This is the thirty-ninth day of the year. It is a good time to buy almanacs; those of year before last come cheaper than recent editions.

Beware of cold chills which are very likely to be serious if followed by fatal effects.

Be careful in all your business affairs; particularly so if your duty calls you into a compound where a wild bull is confined.

Venus is in the ascendent, young men should remember that there are three hundred and sixty-six days in this year and not say "yes" too readily.

This is a bad day to go into bankruptcy, as it may make your creditors suspicious. An excellent day for going into new enterprises—if no one is looking.

Be careful about investing in gold bricks, they are probably not genuine.

The woman whose birthday occurred about 1845 will be just about 26 today.

Bootjacks thrown at tom cats these dark nights may be found the next day if you rise before the neighbors.

Aquarius being in the neighborhood of the ecliptic, is likely to leave upon newly born infants the sign of the water wagon.

Boys born on this date will be subject to mumps, measles, croup and whooping cough and maybe marked with the slipper. They will possess a genius for war, which should be restrained in its early development.

Good luck will come to the man or woman on this date who finds a pot of gold at the foot of the rainbow.

Owing to the malign influence of Mars who is now in the twelfth house (from the corner) you should be very careful not to engage in any controversy on this day. Resist as long as possible the temptation to strike any one who is larger than yourself; but if forced to do so, make sure that a way of retreat is left open behind. This is a bad day for physical exertion, refrain from yielding to impulse to work, even your neighbor. Thus that "tired feeling" will be avoided.

He who does as I direct,
Will live a life most circumspect!

Local Happenings

Rev. and Mrs. W. S. Blackburn are suffering slight attacks of La Grippe.

The W. F. M. Society meets in the M. E. church next Thursday afternoon at 2 o'clock.

Miss Nora Lyman was the house guest this week of Miss Russell on Third street.

Mr. and Mrs. Lafayette Gilman of Muncie, Ind., visited Miss Laura Bulkeley Friday of last week.

A number of our High School pupils attended the basket ball game in Tropico on Thursday afternoon.

Capt. Warren is suffering from an attack of rheumatism, and is stopping with his son, Will, at Covina.

Mr. and Mrs. W. S. Burns, of Los Angeles, were the week end guests of Mr. and Mrs. H. L. Bulkeley last week.

Guests on Thursday of Mrs. Edgar Leavitt, Glendale avenue, were Mrs. E. J. Winslow and Mr. Will Winslow, from Los Angeles.

Mr. L. A. Jones visited Glendale, Wednesday. He is now located at Covina, having some acres of farming land near that place.

Mr. and Mrs. Chapin, from Los Angeles, have moved into their new home, formerly owned by Mrs. Dallas C. Irwin, on Third street.

On the evening of February 22d the Lomita Dramatic Club will present the two-act comedy "Mr. Bob." Full particulars next week.

Mr. Greeson has rented the old Albright place on Fourth street west of Central avenue and will engage in the business of raising vegetables.

We are glad to hear that Dr. D. W. Hunt and family are contemplating a return to Glendale to reside permanently. Their many friends will be very glad to welcome them.

Prof. W. W. Prescott of Washington, D. C., who has recently made a tour of Japan and other Asiatic countries, will speak at the Sanatarium gymnasium Sunday eevning at 7 o'clock. All invited.

Mrs. J. M. Chapin, formerly from Chicago and recently of Los Angeles, a specialist in treatment of the hair and scalp, is now located at the home on Third street which she bought of Mrs. Erwin.

A jolly party of young people gave Mrs. Ida Mason a surprise party last Tuesday evening, in honor of her birthday. About fifteen of the surprising guests were present and the evening passed quickly.

Mrs. Harn of Cedar street has been entertaining Miss Emily Hardin, an old Iowa friend, the past week. Miss Hardin has purchared a small home near Mrs. Harn where she will reside until she decides where to locate.

Social Tea Wednesday, 12th, at Mrs. C. D. Gillelan's, Randolph and Louise, auspices Presbyterian Ladies' Aid Society. Strangers and visitors among us urged to come and promised a pleasant time. Admission 10 cents.

Mrs. M. P. Harrison was hostess on Thursday for a very pleasant dinner, her honor-guest being Mrs. J. C. Lennox, who has been very ill since January 1st. As this was her first visit the occasion proved a most happy one.

Mr. and Mrs. Bartlett of Orange street and recently of Pomona, have this week entertained Mr. and Mrs. W. Hunt and Mr. Harry Bartlett, of Pomona. The visitors were also guests of Dr. and Mrs. Robert Blackburn.

Mrs. J. G. Hunchberger was hostess on Sunday for a number of Los Angeles friends and an excellent turkey dinner claimed undivided attention from the guests. Among them were Dr. and Mrs. A. C. Hummelbaugh, Mr. and Mrs. W. L. Gardner and Miss Lucile Alexander.

Miss Birdie Shropshire was hostess Saturday and Sunday to guests from Pico Heights, Los Angeles. Mr. Will Swan and Misses Hattie and Jean Swan. The party attended the High School entertainment Saturday evening and on Sunday comprised a merry house party.

Because the ladies of the Presbyterian Aid Society are busily swelling the fund designated "sidewalk money" they have decided to ask an admission of 10 cents only to their Social Tea next Wednesday at Mrs. C. D. Gillelan's, corner Randolph and Louise streets, above the Casa Verdugo.

Miss Lizzie Eves, sister of A. L. Eves, arrived in Glendale Thursday last and will be for some days the guest of her brother and wife and of Mr. and Mrs. Jesse P. Lukens. Miss Eves has been spending a year at Santa Clara and after her visit in Glendale will return to her home in Philadelphia.

On Tuesday the Ladies' Aid Society of First Presbyterian church met at the manse with Mrs. S. Lawrence Ward. The meeting was a most pleasant and profitable one and events promised to be of general social interest were planned. These ladies are wide awake and energetic and any one reading the signs of the times can readily see that this society is determined to be one of the most powerful and influential of its kind in our valley.

Mr. Clayton J. Lamb, who lived near Eagle Rock, died on Friday at 12:25 p.m. Bright's disease was the cause of death. Mr. Lamb came here from Michigan about four months ago. He was the Socialistic candidate for governor of Michigan on two different occasions and was prominent in the councils of that body. He was also an old newspaper man. Funeral services at his late home on Sunday at 1:30 p.m. Arrangements in charge of the Pulliam Undertaking Co.

The Overton Realty Company have recently rented a number of Glendale houses to newcomers. Among them may be mentioned the house of N. C. Jonah on Fourth street, which will be occupied by Mr. and Mrs. Samuel Blanc recently from New Orleans. The place on Glendale avenue near Sixth street, belonging to Mr. Thienes, has been rented to Mr. Anderson, a conductor on the Pacific Electric road. Mr. Ambrosini's house on Fifth street corner of J, will be occupied by Mr. Zerr, of the Glendale Pharmacy.

The enterprising members of the Presbyterian Aid Society are so delighted with the grand success which their reception and tea proved to be recently at the home of Mrs. C. F. Parker, that another affair of like nature has been planned to take place on Wednesday afternoon, the 12th, from two until five o'clock, at the handsome home of Mrs. I. D. Gillelan, corner Randolph and Louise streets, above the Casa Verdugo. The receiving committee comprises the hostess, Mrs. Gillelan, the pastor's wife, Mrs. S. Lawrence Ward, the president, Mrs. Daniel Campbell, and about every member of the society. These unbonneted ladies will look after introductions and entertainments of strangers and visitors from other societies and the fraternities. The refreshment committee is made up of six ladies who are especially determined to make of the affair a most delightful success, namely Mrs. Thomas Ogg, Mrs. M. P. Harrison, Mrs. McCoy, Mrs. C. F. Parker, Mrs. Gillelan and Mrs. D. Campbell. The society members are busily inviting all strangers and visitors and those societies and fraternities who held invitations to the previous affair are urged to come, including the members of O. E. S., the P. E. O., Order of Rebekah, St. Mark's Guild, Methodist L. A. S., Baptist L. A. S., schoolteachers, Tuesday Afternoon Club. Altogether the event promises already to become one of the prominent affairs of the winter season.

NEW CATHOLIC ORGANIZATIONS.

The ladies of the Catholic church have formed an organization which held its first regular meeting Wednesday afternoon at the residence of Mrs. Gervais on Ninth street. The following are the officers: Mrs. Jas. McLafferty, president; Mrs. Carrie Smith, secretary, and Mrs. Frank Sauer, treasurer of the Altar Society of the Holy Family parish. This society has a membership of twenty.

The gentlemen of this parish held a meeting at the residence of Father O'Neill on Monday evening and formed a social organization to be known as the Conaty Club. Sixteen were present. The following temporary officers were elected: Joseph McLafferty, jr., president; E. L. Drendel, secretary. A committee of five was appointed to draft by-laws. This committee will report at the next regular meeting to be held on Monday evening, February 17th, at the office of Dr. Barabe, Fourth street next to Dr. Chase's residence.

DEATH OF N. L. VARNEY.

Mr. Norman L. Varney died at 11 o'clock Wednesday evening at his home on Orange Grove avenue. Mr. Varney was attacked by pneumonia about a week ago and the disease was complicated by chronic asthma, which made its course brief and fatal. He was a native of Quebec from whence he came to Glendale about five years ago. He was thirty years of age, and has recently been working at the carpenter trade in connection with Mr. Courtney. He leaves a widow and three children, the eldest six or seven years of age. Mr. Varney was an industrious and popular man and his untimely taking off is a distinct loss to the community. He was elected Noble Grand of the Glendale Lodge I. O. O. F., being installed on January 1st and that organization will take charge of the services at the cemetery. The funeral will take place at 2 p. m. today, Saturday, at the house, Rev. N. J. Burton officiating.

Lincoln-Roosevelt Republican League Meeting

There will be a meeting held at the city hall at 8 o'clock this evening for the purpose of organizing a Lincoln-Roosevelt Republican Club.

All Republicans who are in favor of this reform movement within the party are invited to attend.

FOR RENT—Two-story, six-room house on Ninth street west of Adams. Partly furnished. J. C. Sherer, NEWS office.

LECTURE BY PROF. KNOWLES.

The lecture given in the Methodist-Episcopal church under the auspices of the church society, by Prof. T. C. Knowles, of the University of Southern California, was well worthy of a crowded house, though it was anything but a crowd that met to hear the learned scholar's interesting discourse on "Our Responsibility for Social Reforms."

Those who were there were interested and appreciative and Prof. Knowles striking philosophy won keen attention and applause. A most attractive number on the program was a solo "The Clang and the Forge," Rodney, by Miss Fannie Alma Marple, contralto soloist, for the First M. E. church, in Los Angeles. Miss Marple well deserves the reputation she has already won as being one of the sweetest singers of the sunny South. Though a "Tropico Beauty," the whole valley claims her for its own, and is proud of her.

Her rendering of "Four-Leaf Clover," Brownell, and "The Violets," Mildenberg, was full of sweetness and expression.

The social hour which followed was under the direction of the entertainment committee and the affair was voted a success.

A NEW FIRM.

As announced on another page, the grocery business which has been so successfully conducted by Mr. Cecil E. Shaver for some months past in the Watson block, will hereafter be carried on by the Shaver Brothers. Mr. Charles A. Shaver of Washburn county, Wisconsin, having gone into the business with his brother.

Mr. C. A. Shaver is county recorder of his home county, having filled that position for the past eighteen years. He has been visiting the Pacific coast for some weeks past and coming to Glendale recently he concurs with his brother that this section presents business opportunities which he has not elsewhere found. His term as recorder does not expire for a year, but as soon as he can arrange his affairs in Wisconsin, he will move to Glendale with his family. The firm is adding to its store room by annexing the rear portion of an adjoining room. An additional delivery wagon has also been put into the field, as an additional evidence of deserved success.

THE WEATHER.

The rainfall of Sunday night and Monday measured about two and a half inches, varying greatly in different portions of the valley; notwithstanding that this rain followed so closely on the heels of the last storm but little water went to waste. There was a sharp frost Monday night in lower parts of the valley, but the temperature was not lower than previously experienced this season.

SHADE TREES FREE.

Referring again to the statement in our last issue, we are informed by R. H. Charlton, forest supervisor, that the trees which the department has for distribution, are all pines, of the following varieties: Jeffrey, Knobcone, Canary and Torrey pine seedlings. The trees are at Lamanda Park and the applicant will have to pay expressage or other carrying charges from that place.

Announcement!

The Grocery business formerly conducted by Cecil E. Shaver, corner Fourth and Glendale Avenue, will now be known as Shaver Bros., Chas. A. Shaver having purchased an equal interest in the business. As Shaver Bros. we wish to place ourselves on record as to our method of doing business : : : : : : :

1st. We will continue to keep our store clean and attractive—to serve you only the best Groceries, Fruits and Vegetables obtainable and to guarantee absolutely every article you purchase from us. Our delivery equipment will be increased to meet our growing business, and every care taken to give the best service possible.

2d. We propose to do a conservative 30-day credit business to responsible parties. By conservative we mean that all accounts must be paid by the 10th of each month. Accounts not so paid will be considered closed. We believe that this is the only way in which we can successfully carry on a credit business and at the same time give our patrons the lowest cash prices.

This is the platform on which we ask for a share of your patronage—a good clean, straightforward statement on which there need never be any misunderstanding and on which we believe we can safely lay the foundation for a successful business in your community.

SHAVER BROS.

ASTRONOMY.

V.—Stellar Motions.

The apparent absolute fixity of the stars was believed by the ancients to be real, but in the year 1717 Dr. Hally by the great accuracy of his observations, noticed that the positions of the three bright stars, Sirius, Arcturus and Aldebaran, were from one-third to one-half a degree further south than the positions of the same stars recorded by Ptolemy on the authority of observations made by Hipparchus, B. C. 130. It was at first thought the discrepancies arose from errors of observation on the part of ancient astronomers, but Hally thought otherwise, and considered the difference in positions real and that it had, in truth, been produced by some motion of the stars themselves. And this has proved to be quite true. Between the years 1750 and 1762 Dr. Bradley observed the positions of upwards of 3000 stars, and a comparison of these with modern observations has enabled astronomers to calculate the motion of these stars with some approach to accuracy. But the constant vigilance of observers has not yet been rewarded by the discovery of any general plan of motion among the stars as a whole, those whose motions have been determined appearing to move in every possible direction, as if on perfectly independent orbits. A consideration of the great Newtonian law of gravitation renders this extremely improbable, and indeed only possible in case gravitation ceases to act at those great distances. As far as we have any experience, we know that every body in the universe attracts every other body with a force directly proportional to their masses, varying inversely as their distances apart, and although this force diminishes constantly with the increase of distance, it would never reach a vanishing point. It is therefore probable that the apparent disorder is but the result of our utter ignorance of the plan. As has been finely said: "There is no such thing as chaos in the sidereal universe, for chaos is the negation of law, and law is the expression of the will of God."

The changes of position of the stars, as observed in the past 150 years, is referred to by astronomers as so much angular measurement, so many seconds of arc in a year or a century, denoting so much proper motion—that is, motion across the line of sight, in a corresponding period of time. In the case of a planet, comet or any other body traveling within the solar system, three observations at intervals of a few days only are needed to determine the curve on which it is moving, and therefore its orbit. In the case of the stars, however, many more observations are necessary, at much greater intervals of time, hundreds, and in some cases, thousands of years, would be needed to disclose a parallax that could be measured by the finest instruments. Most stars appear to move only a few seconds of arc per century, this may result either from greater distance, or from a really slower motion, those appearing to move faster may, on the other hand, be much nearer or have a really greater velocity.

Some of the most remarkable advances of modern astronomy have been due to photography. In 1882 Professor Gill at the Cape of Good Hope, took photographic pictures of the great comet which appeared that year, and was rewarded with the great discovery that not only all the stars visible to the naked eye, that is, to the sixth magnitude, were in the picture, but also telescopic stars down to the ninth and tenth magnitude. This suggested the obvious idea of making a complete catalogue of the stars by photography. This has now been done many times, and is still continued as part of the routine work at many observatories in various parts of the world. It will readily be understood that a photographic chart of any part of the sky taken, say, 30 years ago, and the positions of all stars on it having been accurately determined, another similar chart being taken now and compared with the former, any changes in position of the stars could be instantly detected and measured. Thus in all the important work of the present day the stars and spectra are photographed and the investigator can study the charts at his ease and leisure.

Among the more rapidly moving orbs is the great star Arcturus, which is moving with the astrounding velocity of about 200 miles a second, but most of the stars appear to move about from 20 to 40 miles per second. The earth moves round the sun at nearly 19 miles a second, and many of the stellar velocities do not appear to be so high as this.

It will be noted that the motions we have been considering are of any direction, but across the line of sight, at right angles only, proper motion, as it is termed by astronomers, leaving out of account any motion towards or away from us. For a long time this baffled the utmost ingenuity of mathematicians and investigators, and seemed altogether beyond the power of human skill to solve. Nevertheless today we possess a most beautiful and accurate method by which we can, with certainty, measure the movements of the stars in the line of sight, or radial motion, as it is termed. We do not have to wait long intervals of time to get results in this case, for the operation of the method is almost instantaneous. And again we are indebted for it to that wonderful instrument, the spectroscope. This method is based on the theory that every definite color is caused by a certain definite number of ethereal vibrations reaching the eye in a given time—so many per second—from the color red, through orange, yellow, green and blue to faint violet, which corresponds to the highest number of vibrations producing visible effects to human eyes. These certain numbers of vibrations, corresponding to the definite colrs presuppose, however, that the source of light producing them and the observer, shall be stationary. And it is obvious that if such source of light or the observer, or both of them, be in rapid motion in the line of sight, the number of vibrations reaching the eye in a given time will be increased or diminished—the wave lengths will be fore-shortened or elongated—according as the source is approaching or receding. An analogous phenomenon is observed in sound, a note appearing to rise in pitch as the source of the sound approaches the ear, and fall in pitch as it recedes. This may be easily noted in the whistle of a railway engine traveling at high speed towards or away from the ear, and is still more apparent when the observer instead of being at rest, is traveling at equal speed in the opposite direction to the whistling engine. In this case the number of air-vibrations reaching the ear in a given time is, of course, affected by the motion of the source of the sound. Sound itself travels 1100 feet per second and this is increased or diminished by the motion of the sounding body or the observer, or both, and the note is correspondingly changed. In the same way the light coming from a star in rapid motion will give a spectrum in which the colors and other markings are changed in such a manner that the motion can be detected, and calculated. It is impossible in a short paper like this to explain the details of this wonderful application of the spectroscope, but it is hoped the hint given will assist the intelligent reader to understand it. The marvellous accuracy of this method is such that by it we are enabled to calculate the speed of a star to within one-tenth of a mile per second.

The velocities of approach and recession of eight of the principal stars in miles per second are given below:

APPROACHING STARS.

Sirius	9.8
The Pole Star	16.1
Arcturus	4.8
Vega	9.5

RECEDING STARS.

Aldebaran	30.2
Rigel	10.2
Capella	15.2
Betelguese	10.7

Due allowance has been made in every case for the speed of the earth round the sun, 18.7 miles per second at the time of the observation, so that the numbers represent the actual velocities of the stars in relation to the sun. Thus, the great stars tell us much of their wonderful story by light which has been coming to us probably 200 years. To quote Sir Robert Ball: "It is impossible for any lover of astronomy to contemplate these achievements of modern science without emotion." X-RAY.

L. C. SMITH & BROS. TYPEWRITER

THE 1908 MODEL

Illustrates the modern writing-machine carried nearer to the point of absolute perfection than any other typewriter in existence

Writing in Sight

SOME NEW FEATURES

GARDNER BALL-BEARING TYPEBAR JOINT—You know the superiority of a ball-bearing over the common friction bearing. Our typebar bearings are made of steel as hard and as smooth as glass; run perfectly free, without play and without friction

INSTANTANEOUS AUTOMATIC RIBBON REVERSE—Works in the fraction of a second, without an ounce of ribbon strain or any added key tension. The first satisfactory ribbon-reversing device.

THE NEW LIGHTNING ESCAPEMENT for ease and speed and the new Silent Shift, with many other valuable new features, combine to produce the first example of a modern writing machine complete in every detail.

Pratt's Food makes hens lay. Glendale Feed and Fuel Co.

Grammar School

The first half of the current year closed on January 24th. The total enrollment for that time was 410. The enrollment for the current month is 353.

Recent visitors were Misses May Cornwell and Flora Chandler, teachers of the Tropico school, and Miss Beatrix Miller of Los Angeles, a cousin of Miss Howlett.

Friday, February 21st, will be Patrons' Day. The exhibit of the work of the various grades will be open to the public the entire day. A short program will be given by the pupils at 2 o'clock. All friends and patrons are invited and it is hoped that they will encourage the teachers and pupils by being present.

Work for Unemployed

The city council Monday took advanced steps to head off distress among married workingmen by setting aside $5000 for the park department.

It is proposed to employ 200 men to build a boulevard from Elysian Park to the city boundary, the county supervisors to appropriate an equal amount to continue the work from the city limits to Griffith Park.

A scale of $1.50 a day was fixed for wages, and the city officials will undertake to get free trolley cars for the men so that they need not be put to the expense of paying carfare out of their small earnings. Applications for work must be made at the park department, city hall.—Northwest Enterprise.

Elbert Hubbard in the Philistine

"The Savings Bank habit is not so bad as the Cab Habit—not so costly as the Cigarette habit. The man with the Savings Bank Habit never gets laid off; he's the one who can get along without you, but you cannot get along without him.

The Savings Bank Habit means sound sleep, good digestion, cool judgment and manly independence. The most healthful thing I know is a Savings Bank Book—there are no microbes in it to steal away your peace of mind. It is a guarantee of good behavior.

Remember that the Bank of Glendale has a savings department; call and let them tell you about it. 41-tf

Rainfall at Sierra Madre

Sierra Madre keeps up its record as a leader in rainfall. The rain which fell from January 23d to 28th inclusive, measured there 7.59 which beat us by two inches. Their total for the season up to February 1st was 12.56 as against 23.63 last year at the same date.

George Peters has sold to purchaser whose name we have not heard, who wants the lots for a home, two and a half acres of land on Fourth street West of Central Avenue, for $3750.

TROPICO

Mrs. Anna Imler Smith returned the first of the week from a brief visit to friends at San Bernardino.

Miss Hazel McKown, of Glendale avenue, who has been ill with a severe attack of measles, is slowly convalescing.

Miss Cecil Hagerty, of Los Angeles, is the house guest of Mrs. Anna Imler Smith, at Quinta Ana, on Riverside Drive.

The many friends of Mrs. L. L. Cushing wil be pleased to learn that she is rapidly recovering from her recent illness.

Miss Nola Lyman, of Los Angeles, was the guest of her sister, Mrs. Joseph H. Webster, at Ivy Nook on Park avenue, the past week.

Mr. and Mrs. William McCarroll of Moore avenue, have been entertaining their nephew, Glenn Calvin Hays, of Nortonville, Kansas, this week.

Mrs. Oscar Erkstine, who has been visiting her mother, Mrs. L. L. Cushing, the past week, returned to her home at Perris, Thursday evening.

The Ladies' Aid of First Presbyterian church, held the regular monthly meeting at the residence of Mrs. W. A. Thompson, Wednesday afternoon.

Mrs. Charles Peckham announces a dancing class for children at Logan's hall, Saturday afternoon, at which the lads and lassies of Tropico will be instructed in the art of tripping the light fantastic toe.

Mr. and Mrs. Daniel Webster, accompanied by their niece, Mrs. May Smith, of Seattle, Wash., returned Friday from a week's visit at El Centro, Imperial Valley, and are visiting Mr. and Mrs. Joseph H. Webster, at Ivy Nook.

Mrs. H. A. Biddle, of Los Angeles accompanied by her daughter, Miss E. G. Biddle, and granddaugter, Berenice Biddle, and Miss Nellie Newcomb, of Orange county, spent Sunday with her son, S. G. Biddle, of Tropico avenue.

Owing to illness Rev. William McConnell, of Des Moines, Iowa, the recently appointed pastor of the First Presbyterian church of Tropico, has been detained at his Iowa home and will be unable to arrive here for a fortnight, at least.

Wesley Bullis has returned from a visit to Imperial Valley and comes back full of wild stories of that wonderland. He reports a full crop of grapes raised on vines less than a year old from cuttings, and corn now in the field almost ready to cut.

The Tropico Thursday Afternoon club held an important and interesting business meeting at the residence of Mrs. F. C. Richardson Thursday afternoon. Mrs. Richardson was assisted in the entertainment of the officers and members of the club by Mrs. Fred Warren.

The Epworth League of the First Methodist-Episcopal church held a social at G. A. R. hall, Tuesday evening, which was largely attended. This successful entertainment was under the patronage of Mrs. Clyde R. Carmack, Mrs. W. A. Hugh and Mrs. S. G. Biddle.

The regular meeting of the 500 club which was to have been held at the residence of Mr. and Mrs. Wesley Bullis, Wednesday evening, was postponed, owing to the sudden and tragic death of Mr. Edward J. O'Connell, which occurred Wednesday night at the residence of Mr. Roberts at Pacoma.

The cottage prayer meeting of the First Presbyterian church was held at "Twin Pines," the residence of Mr. and Mrs. N. C. Burch, Wednesday evening. Missions was the topic for the evening discussion. The Sabbath School teachers of the church held a meeting at the close of the prayer meeting.

The Woman's Missionary Society of the First Presbyterian church held a meeting at he church Friday evening at which an interesting program was rendered. Mrs. M. W. Crowell of Alhambra, home secretary of the Missionary Society of this district, gave an able address. Excellent music was also rendered.

A valentine dance and flower cotillion will be given at Logan's hall, Friday evening, January 14, for the benefit of the Tropico Library building fund. Patronesses for this occasion will be Mesdames Hal H. Davenport, Ernest J. Morgan, Charles E. Barker, Charles Peckham, Burt Richardson, John Seaman and E. M. Lynch.

CHILDREN'S LAWN PARTY.

Irving Wilkinson entertained a number of his school and playmates with a lawn party at the residence of his parents, Mr. and Mrs. Clarke G. Wilkinson, on San Fernando road, Saturday afternoon to celebrate his tenth birthday anniversary. A number of games dear to the children's hearts were enjoyed and dainty refreshments were served on the wide verandah of the residence, which had been most profusely decorated in honor of the event, by Mrs. Wilkinson, mother of the young host, who is a prime favorite among his playmates. Irving's guests included Mary Logan, Rachael McClure, Jeanette Seaman, Frances Peckham, Eleanor Collins, Daphne Burlingham, Dorothy Hobbs, Mary Evans Hough, Myrl Murray, Dorothy Leech, Marjorie Imler, Amy Miller, Carlinaa Brensing, Ida Seymour, Abbie Ward, Louise Monette, Winifred Bacon, Blanche Ward, Ethel Rhodes, Frances Bacon and Julia Monette, Eugene Imler, Hosea Stillman, Harwood Collins, Donald Murray, Clyde Griswold, Everett Richardson, Percy Seymour, Claude Griswold, Wilson Seymour, Leo Guichart, Shirley Melrose, Louis Gabaig, Richard Wagner and Neville Richardson.

TROPICO M. E. CHURCH NOTES.

The attendance at Sunday School, last Sunday, was 81, notwithstanding four teachers and a number of scholars were absent on account of sickness.

Our pastor preached two excellent sermons. The morning service was well attended, but because of the rain the evening attendance was small.

An interesting meeting of the Epworth League was led by Miss Minton.

Class meeting was evangelistic in nature, and was led by Mr. Jos. Marple, sr.

Revival services will begin next Sunday with Rev. J. H. Henry, pastor, in charge.

The Epworth League social and entertainment at G. A. R. hall, was a success. Those who did not attend missed a rare treat. On account of the length of the program the spelling contest was omitted.

TRAGIC DEATH OF EDWARD O'CONNEL.

Fatally wounded by an accidental discharge of his revolver while on a hunting trip, Wednesday morning, near Pacoima, Edward J. O'Connell died at the house of Mr. Roberts, Wednesday night. Early Wednesday morning Ed. O'Connell, as he was known by all, accompanied by J. Will Gould left on the Southern Pacific train for Pacoma for a day's hunting trip. Will H. Blain and Charles Hapgood had contemplated accompanying Mr. O'Connel and Mr. Gould on the day's trip, but were unavoidably detained.

Arriving at Pacoima Mr. O'Connell and Mr. Gould proceeded towards the hunting fields. After walking at least three miles from the main highway a brook intervened which necessitated leaping. Will Gould succeeded in crossing the brook and was startled to hear the report of a gun. On turning he observed Mr. O'Connell who was some distance farther up the stream, throw up his hands and fall backward. Gould hastened to O'Connell and found him seriously wounded. In leaping the brook Mr. O'Connell's shotgun struck a loaded 38-caliber revolver he was carrying in his pocket, and the revolver was dislodged, falling, struck a stone and was discharged, the bullet passing through the right side, two inches near the right nipple and passing out near the spine.

Ed. looking up into his companion's face, said, "Well, I guess I'm done for." Mr. O'Connell made his friend as comfortable as possible and hastened for assistance. He ran three miles when he met a man hauling a load of sand. He and the driver dumped the sand and started for the wounded man. They overtook another conveyance and the driver learning of the accident drove hastily for the doctor, and to notify Tropico friends. Mr. O'Connell was conveyed to the home of Mr. Roberts, and there passed away at 9:30 o'clock that night.

Clarke G. Wilkinson, Joe McPheelers and Dr. Campbell hastened in Mr. Wilkinson's touring car to Mr. O'Connell's assistance, who was still conscious, and recognized his friends with whom he held a brief conversation, fully realizing his hopeless condition. Charles Hunter, L. A. Chandler and other friends drove to Pacoima Wednesday evening, arriving a few minutes before Mr. O'Conenll passed away. The coroner was notified and ordered the body removed to John R. Paul's undertaking establishment on Downey avenue. Several telegrams were sent to Mr. O'Connell's sister, who resides in Chicago.

Mr. O'Connell was well known and loved by all with whom he came in contact. He came to Tropico from Chicago about five years ago and made his residence here, stopping at the house of N. C. Burch on Park avenue, and lately at the home of W. A. Thompson on Central avenue.

Mr. O'Connell numbered his friends by his acquaintances, for every man, woman and child loved and respected Ed. He was also known as a dear and helpful friend to animals. Arrangements for the funeral will be made later.

AUDITORIUM.

"Under the Polar Star," which Dick Ferris will offer at the Auditorium, Los Angeles, the week of Feb. 10, is a great English melodrama, in which Wm. H. Thompson, the veteran actor of the stage, made a tremendous hit in New York last season. This is its first appearance outside of this production, and its first time anywhere in stock. The story starts in an English drawing room, but is rapidly transferred to the land of ice and snow, and from then on its locals is in the frozen north. In the end, of course, the pole is found, and all the intense sufferings and mental anguish end in happiness to everyone except the villains. Spectacularly, the play will be the most tremendous yet seen on the Auditorium stage. One scene shows the ship ice bound in the far north, in the six months night, with only the Polar star to cheer the weary watchers. Incident to this will be specialties to show how they prevented the dreariness of the long darkness from overpowering them, these being contributed by Florence Barker, Carrie Clarke Warde, Frank Beamish and Hugh Metcalfe. They add delightful variety to the ensemble. A still more startling feature is the transformation of Florence Stone into a darky cabin boy. The action of the play requires that she black up and don trousers, to thwart the villain, and she makes as complete a change in her appearance as is possible to a human being. The scenic investiture will be great, especially the depiction of the fields of eternal ice and the driving snowstorms of those benighted regions.

CHANGES IN THE WATSON BLOCK

The meat store of Watson & Son has been removed from the corner room on Glendale avenue which it has hitherto occupied, to the rooms lately occupied by Messrs. Hurtt and Peterson in the same block. The room formerly occupied as a restaurant will be used as a store room, in front, for nursery stock, the rear being added to the quarters occupied by Shaver Brothers grocery. The corner room will be occupied in a few days by Mrs. Mae Mitchell, who will soon become a resident of Glendale and will put in a full line of millinery goods, opening up in time for the Easter trade.

RESOLUTION NO. 111

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE ORDERING CERTAIN STREET WORK TO BE DONE ON FOURTH STREET.

The Board of Trustees of the City of Glendale do resolve as follows:

Section 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Glendale, State of California, hereby orders the same to be done according to the specifications and plans adopted for said work, and under the direction and to the satisfaction of the superintendent of streets of said city, to-wit:

First. That that portion of Fourth street in said City from the west line of Adams street to the east line of Glendale Avenue, including all intersections of streets (excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon), be graded, oiled and tamped in accordance with the plans and profile on file in the office of the City Engineer, and Specifications for the construction of graded, oiled and tamped streets, on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 9, except that no gutters are to be constructed.

Second. That a cement curb be constructed along each line of the roadway of said Fourth street from the west line of Adams street to the east line of Glendale avenue, including returns at all street intersections (excepting along such portions of the line of said roadway upon which a cement curb has already been constructed to the official line and grade), in accordance with the specifications for the construction of cement curbs on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 2.

Third. That a cement sidewalk five (5) feet in width be constructed along each side of said Fourth street from the west line of Adams street to the East curb line of Glendale avenue (excepting such portions of said Fourth street between said points along which a cement sidewalk five feet in width has already been constructed to the official line and grade), said sidewalk to be constructed according to Specifications for cement sidewalks on file in the office of the City Clerk of the City of Glendale, said Specifications being numbered 1.

Section 2. That the Board of Trustees of the City of Glendale finds upon estimates directed to be furnished and furnished by the City Engineer that the total cost of said improvement will be greater than fifty cents per front foot along each line of said street, including the cost of intersections, and it is hereby determined, in pursuance of an Act of the Legislature of the State of California, approved February 27, 1893, as amended by an Act of the Legislature amending said last named Act, which amending Act became a law March 2, 1899, that bonds shall be issued to represent the cost of said improvement. Said bonds shall be serial, extending over a period of ten years from their date, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date, until the whole are paid, and said bonds shall bear interest at the rate of seven per cent. per annum on all sums unpaid payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, until the whole of said principal and interest are paid.

Section 3. The Glendale News, a weekly newspaper of general circulation, published and circulated in said City of Glendale, is hereby designated as the newspaper in which this Resolution and Notice of said street work inviting sealed proposals, shall be published in the manner and form and by the persons required by law.

Section 4. The City Clerk of the City of Glendale is hereby directed to post conspicuously for five days on or near the Chamber door of the Board of Trustees, in the manner and form required by law, a notice with specifications inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish for two days in said newspaper hereby designated for that purpose, as aforesaid, in the manner and in the form required by law, a Notice of said work inviting sealed proposals or bids for doing said work and referring to the specifications posted or on file.

Said Notice shall require a certified check or bond, either, as prescribed by law, and for an amount not less than ten per cent. of the aggregate of the proposals; said City Clerk is also hereby directed to publish this Resolution for two days in the manner required by law, in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 5th day of February, 1908.

WILMOT PARCHER,
President of the Board of Trustees of the City of Glendale.
(Seal)
Attest: G. B. WOODBERRY,
City Clerk of the City of Glendale.

STATE OF CALIFORNIA,)
)ss.
CITY OF GLENDALE,)

I, G. B. WOODBERRY, City Clerk of the City of Glendale, do hereby certify that the foregoing Resolution was duly passed by the Board of Trustees of the City of Glendale, State of California, and approved by the President of said Board at a regular meeting thereof, held on the 5th day of February, 1908, and the same was passed by the following vote, to-wit:

Ayes: Anderson, Campbell, Parcher, Watson.
Noes: None.
Absent: Jennings.

G. B. WOODBERRY,
City Clerk of the City of Glendale.

NOTICE INVITING BIDS

FOR THE ERECTION OF A TWO-STORY BRICK BUILDING FOR THE USE OF THE FIRE DEPARTMENT OF THE CITY OF GLENDALE, LOS ANGELES COUNTY, CALIFORNIA.

Public notice is hereby given that the undersigned, City Clerk of the City of Glendale, Los Angeles County, California, will receive sealed bids up to and including February 26, 1908, at 6:30 p.m., for the erection of a two-story brick building for the use of the Fire Department of said City of Glendale, said building to be erected in accordance with the plans and specifications for the same on file with the City Clerk, reference to which is hereby made.

All bids must be accompanied by a certified check or cashier's check, payable to the order of the President of the Board of Trustees of the said City of Glendale for an amount equal to at least 10 per cent of the amount of the bid as a guaranty that the bidder will enter into a contract with said City of Glendale for the erection of said building and give the required bonds if said contract is awarded to him.

The Board of Trustees of said City of Glendale hereby reserves the right to reject any and all bids.

By order of the Board of Trustees.
G. B. WOODBERRY,
City Clerk.

Dated at Glendale, California, February 7, 1908.

THE DRAIN UPON THE FORESTS.

They Are Being Cut Three Times as Fast as They Grow.

Since 1880 the sources of lumber supply have undergone remarkable changes. The first change was in the regions from which the principal kinds of lumber were procured, and this was followed by the substitution of other kinds of wood in their places. Neither the centers of the lumber industry nor the leading classes of woods are the same as they were twenty-five years ago. In 1880 nine States—Michigan, Pennsylvania, Wisconsin, New York, Texas, Arkansas, Mississippi, Louisiana and Washington—produced 52.8 per cent., or more than half of the total lumber production of the United States. In 1906 these States produced 51.5 per cent., practically the same proportion, but the changes which have taken place in the output of individual States are very striking. Michigan, for instance, cut 23 per cent. of the total in 1880 and but 5.6 per cent. in 1906; Louisiana cut 0.7 per cent. of the total in 1880 and 7.5 per cent. in 1906; Washington furnished but 0.9 per cent. of the lumber production of 1880 and 11.5 per cent. of that of 1906. The cutting out of the virgin timber in the North and East has been followed by increased drains upon the forest resources of the South and West.

Despite these conditions the amount of timber required has increased year by year. The increase in consumption of timber since 1880 has been more rapid than the increase of the population, and greater than in any similar period in the history of the country. This shows in a striking manner how much the nation depends upon forest products, and indicates how greatly all interests must suffer as lumber becomes scarcer and dearer.

Statistics gathered by the Bureau of the Census and the Forest Service show that the quantities of timber used last year for lumber, shingles, ties, pulpwood, cooperage stock, mine timbers, lath, distillation, veneer, poles, tanning and turpentine and rosin, expressed in board feet, reach a total of approximately 50 billion board feet.

While these drains upon the forest are known with reasonable certainty, there are others of which there is no record. These are the demand for posts, fuel and domestic purposes, regarding which it is more difficult to obtain information, because the products often pass through no market, but are consumed on the farm where they were produced. Careful estimates, however, place the total of wood used for fuel alone at an equivalent of 50 billion board feet a year.

It will be seen, then, that the present consumption of wood in all forms is above 100 billion board feet annually. Estimating the forest area of the United States at from 500 to 700 million acres, and the annual growth at 60 board feet per acre, the yearly increase is from 30 to 42 billion feet. At this rate, the annual growth barely equals the amount consumed for lumber alone. Considering all the drains, the annual consumption of wood is probably three times the annual growth. Detailed estimates of standing timber range from 1400 to 2000 billion feet. Using the larger figure, and considering the annual growth of 40 billion feet, it appears that there is not more than a thirty-five years' supply of timber in this country at the present rate of consumption.

At present only about 22 per cent. of our total forest area is in State or National Forests, the remainder being unreserved public lands or in private hands. The forest area is amply sufficient, if rightly managed, to produce eventually enough timber to supply all our needs. Yet private owners, as well as the State and National Governments, must use their forest lands in a right way if we are to maintain our timber supply.

Circular 129, just issued by the Forest Service, contains a discussion of the drains upon the forests and the sources and the duration of the timber supply. This publication will be sent free upon application to the Forester, U. S. Department of Agriculture, Washington, D. C.

BURBANK

Mr. Lehman, of Orange, spent Tuesday with the home folks.

Mr. and Mrs. C. B. Fisher spent Sunday at Sherman, guests of relatives.

Mrs. A. O. Kendall, who has been on the sick list, is convalescing.

Mrs. Will Howard, of San Pedro, is the week guest of Mrs. George Nelson.

Miss Frae Kendall, of Los Angeles, is visiting at the home of A. O. Kendall.

Geo. Matlos will leave Saturday for Goldfiled, where he has business interests.

Capt. and Mrs. Roach spent the first of the week at Sherman, the guest of friends.

Harry Hixon, of Lordsburg, spent the first of the week visiting with old friends.

N. P. Ogier is home from the Glendale Sanitarium, and is rapidly improving.

M. J. Groshong is painting and repairing her store and house on Second street.

John McKee, of Sault de Ste. Marie, Michigan, was the week guest of Capt. and Mrs. Roach.

Prof. A. H. Riddell, of Lancaster, spent Saturday and Sunday at the home of his parents.

Mrs. C. Ballagh, of Los Angeles, was the Sunday guest at the home of her sister, Mrs. O. J. Stough.

Mrs. C. J. Stough is building onto her house on Sixth street, which will add greatly to its appearance.

Mrs. L. Noel, nee Stella Weber, of Los Angeles, is visiting at the home of Mr. and Mrs. Will Weaver.

Mr. and Mrs. W. Smith, of Pasadena, spent Sunday at the home of Mrs. C. Parker, sister of Mr. Smith.

Misses Evalyn Wood and Grace Shelton saw "Adella Verne" at Simpson's Auditorium, Saturday afternoon.

Mrs. W. Loy, of Chicago, visited during the week at the home of her cousins, Mesdames King and Ben Ludlow.

Mrs. Ed. Fischer entertained for luncheon Sunday at her home on Second street. Covers were laid for twelve.

Capt. and Mrs. Roach and Mr. and Mrs. Davis, attended the Michigan State picnic at East Lake Park, Saturday.

Mrs. J. L. Robison entertained the ladies of the W. C. T. U. at her home on Orange Grove avenue, Wednesday afternoon.

Mr. and Mrs. Davis entertained during the week Will Reeder, of Lake City, Michigan, and Chas. Ransom, of Chicago, Ill.

Prohibition meetings were held in the Christian church Wednesday and Thursday evenings. Mr. Glass of Pasadena spoke.

The teachers and officers of the Presbyterian church will hold a business meeting every Thursday afternoon in the church.

M. J. Groshong has sold out his feed and grain store to O. R. Boyd and Chas. Pomeroy, who will take possession the first of the week.

The Christian Endeavor of the Christian and Presbyterian churches will give a social Friday, Feb. 14th, evening at the home of Mrs. Cluggage.

A. O. Kendall has sold out one-third interest, in his departmtnt store to Bert Davison, of Glendale. Mr. and Mrs. Davison have moved to Burbank, where they will reside.

Mesdames Evans and Shields have returned home from Aureta Springs, San Bernardino, county, where they stayed two weeks for the health of Mrs. Shields, who has improved during her absence.

Miss Ethel Thompson, of Madison, arrived in Burbank, Friday, and will reside here at the home of her brother, Dr. E. H. Thompson. Miss Thompson will have charge of the sanitarium, which will be opened about the 15th of February.

Jake Swall, of Sherman, has been appointed by the government to carry the mail on Route No. 1, to take the place of Mr. John McLeod. Mr. and Mrs. Swall will move to Burbank to make their home.

Misses Cora and Gladys Myers entertained the Palm Leaf Club in a charming manner at their house, Saturday evening. The house was tastefully decorated, carnations and greenery being used in the living room, while violets ornamented the table. In a needle contest Geo. Thedaker won first prize and Henry Story the consolation. Chester Craig was awarded first prize in a cherry contest and Fletcher Pomeroy the consolation. Guests were Mr. and Mrs. Geo. Thedaker, Misses Emma Riddell, Lizzie Johnson, Clara Clarke, Theresa Knapp, Faith Sence, Messrs. Paul Knapp, Will Hoist, Harry Hixon, Fletcher Pomeroy, Henry Story, Robert Cluggage, Chester Craig, Henry Lehman and Hardy Riddell.

J. H. Huntley, cement contractor, Burbank, Cal.

A GREAT PROJECT.

We all realize in a general way that we are living in an age of great achievements, but it is only occasionally that we give more than a passing thought to some of the tremendous undertakings of the present day. The Panama canal occupies, perhaps, the first place in our consideration of great enterprises, and some of us have possibly given a thought to the "Cape to Cairo Railroad," that is being pushed through the great length of the "Dark Continent." Fewer of us probably have had our attention called to the task being rapidly pushed forward on the southeast corner of the United States by the millions of Henry M. Flagler, one of the Standard Oil magnates. A recent article in Everybody's Magazine describes this "greatest engineering feat of the day." This is the railroad from Miami, Florida, to Key West, out in the Gulf of Mexico, a stretch of 157 miles.

Key West is the outermost of a chain of islets reaching out into the sea from the extremity of the Florida peninsula, from which it is distant 130 miles. In this distance the railroad is to bridge thirty miles of open sea. It stretches from Key West, the greatest distance between any two of them being nine miles.

Cuba is the objective point, Havana being but ninety miles from Key West and the road when completed will bring New York and Havana within two days' travel of each other; in fact, the trip is now, or in a few weeks will be made in that time, steamers connecting with the new road at Knights Key, 120 miles from Havana.

Sir William Van Horn, the great Canadian railroad builder, is doing great things in the way of railroad building in Cuba and has far-reaching plans for the opening up of that wealthy island in the tropical seas. The railroad being built by Flagler at a cost of something like $15,000,000, is to be the important link connecting the island with the United States, as when completed solid trains will run between New York and Havana, being carried on great ferry boats over the unbridged ninety miles of sea. The work was begun at Miami about ten years ago, trains already run to a point forty-seven miles from Key West and eighty per cent. of the construction work is completed on the remainder of the road. From Miami to Cape Sable, a distance of eighty miles, the road is built across the Everglades, "the most hostile and inaccessible wilderness left in the United States." The difficulty experienced in building the road through this almost bottomless swamp, would have been, except to the most skilful of engineers, insurmountable. The problems to be solved in swamp and sea were entirely new and tried the genius of Engineers Parrot and Meredith to the utmost, but they conquered every obstacle. At one time they had on the pay roll 14,000 men, and the problem of securing such an army of reliable laborers was one of the most serious they had to solve. The track is carried on concrete viaducts, arched and reinforced with steel.

The work has been carried on in the track of the hurricanes that sweep up from the tropics, and on one occasion forty-nine men were swept out to sea in two house boats, and only one of them survived.

Henry M. Flagler, who is financing this great project, is 78 years old and is pushing the work on with all possible speed in order that he may see its completion. He has already spent $30,000,000 in a chain of winter resorts along the Florida coast, all connected by a railroad of his own construction. The general public, contemplating this great project, so near completion, may well get some satisfaction from the reflection that some of the millions acquired by the Standard Oil coterie of the "predatory rich," are being put to such splendid use.

DICK FERRIS' INDOOR CIRCUS

Stronger and better than ever, with a complete shift of program and many new acts, the big Dick Ferris' Indoor Circus begins its second week. The throngs which assemble before its doors long before opening, and the rush for places when admittance is gained, amply verify the statements made in advance, that it would be a tremendous hit. No new amusement enterprise has ever started off so beautifully in Los Angeles, and the delight with which every act is received easily proves that the program is one that pleases young and old alike. Numerous features have been improved since the circus started and more are in contemplation. The Aberns, the first big act to be introduced, were a success from the start, and every time they appear it has been to generous applause. Among the new things that will be offered now, besides the retention of the best of the old acts, are a fine Japanese troupe in tumbling, balancing and ladder work, and the act shows marvellous skill on the part of the participants.

The daily matinees have proved a great feature with the women and children, and the youngsters seem to never tire of the menagerie with the baby tigers, the lions, the funny monkeys, the herd of six big elephants, together with the class of trained ponies, which prove of rare educational value.

These matinees will be continued every day during the engagement as well as on Sundays, and the night performance will be given regardless of weather. The building is rainproof and comfortable enough to protect all from any Southern California storm, and the trolley cars stop at the door.

...Springing a Leak...

is what's liable to happen to the best of families. Generally comes, too, about holiday times, when it's not welcome. Don't growl, but smile and look happy and phone us.

HOLIDAY PLUMBING

whether stopping a leak or anything else, is repaired by us to perfection. For quick despatch and low prices, jot it down to always have us do the job.

THEO. F. HANKERSON

TWO VALENTINES.

February once again,
Shortest month of all the year;
Just about the season when
Valentines in flocks appear.
Let us look the mail bag through
May be something's here for you!

Ah—for my best girl a prize!
Open quickly while it's fresh—
There, I thought so, "Dear, your eyes
Brown are as the woodland thrush,
And the sunshine of your smile
Makes the old world seem worth while."

Good my postman! What comes next,
That one is most apropos;
Like I not this formal text
It is sure to fall below
That high stardard! "My Dear Sir,
Money talks, four dollars per
Was the price you were to pay,
Strictly cash—when clothes were done;
You will please remit today,
Or another suit's begun
Which will not your form become
Yours, The Pantitorium.
